- 11.8. The Transaction (opening or closing a position) is executed at the Bid / Ask prices offered to the Client. The Client chooses his desirable operation and makes a request to receive a Transaction confirmation by the Company. The Transaction is executed at the prices the Client can see on the screen. Due to the high volatility of the markets, the price may change during the confirmation process and the Company has the right to offer the Client a new price. In the event the Company offers the Client a new price the Client can either accept the new price and execute the Transaction or refuse the new price, thus cancel the execution of the Transaction;
- 11.9. The Client shall give only the following Orders of trading character:
- a) Orders to open a position;
 - b) Orders to close an Open Position;
 - c) Orders to add/remove/edit Orders for Stop Loss, Take Profit, Buy Limit, Buy Stop, Sell Limit, and Sell Stop.

Any other Orders shall be unavailable and may automatically be rejected;

- 11.10. Orders shall be placed, executed, changed or removed only within the Operating (Trading) Time of the Company and shall remain effective through the next trading session. The Client's Order shall be valid in accordance with the type and time of the given Order, as specified. If the time of validity of the Order is not specified, it shall be valid for an indefinite period;
- 11.11. The Company shall not be held responsible or liable in the case of delays or other errors caused during the transmission of Orders via computer;
- 11.12. Corporate Events are the declarations by the issuer of a Financial Instrument, of the terms of any of, but not limited to, the following:

 - b) a distribution to existing holders of the underlying shares of additional shares, other share capital or securities granting the right to payment of dividends and/or proceeds of liquidation of the issuer equally proportionately with such payments to holders of the underlying shares, or securities, rights or warrants granting the right to a distribution of shares or to purchase, subscribe or receive shares, in any case for payment (in cash or otherwise) at less than the prevailing market price per share as determined by the Company;
 - c) Any other event in respect of the shares analogous to any of the above events or otherwise

having a diluting or concentrating effect on the market value of the shares.

- 11.13. The Company reserves the right to change the opening/closing price (rate) and/or size and/or number of the related Transactions and/or the level and size of any Sell Limit, Buy Limit, Sell Stop, Buy Stop Order, in case of any Underlying Asset of the Financial Instrument becoming subject to possible adjustment as the result of any event set out in clause 11.12 above. This operation is applied exclusively to securities and has a meaning to preserve the economic equivalent of the rights and obligations of the Parties under that Transaction immediately prior to that Corporate Event. All actions of the Company according to such adjustments are conclusive and binding upon the Client. The Company shall inform the Client of any adjustment as soon as reasonably practicable;
- 11.14. While a Client has any Open Position on the ex-dividend day for any of the Financial Instruments, the Company reserves the right to proceed with the closure of such positions at the last price of the previous trading day and open the equivalent volume of the underlying security at the first available price after the market movement, on the ex-dividend day. In this case, the Company shall inform the Client by releasing an announcement on the Website about the possibility of such actions, not later than the closing of the trading session prior to the ex-dividend day.
- 11.15. The Company reserves the right at its sole discretion to disable the Client from opening any new positions on the ex-dividend day or prior to the ex-dividend day. In case of any unjustified profit generated from ex-dividend activity, the Company reserves the right, and without giving prior notice to the Client, to re-adjust the profit (i.e. remove the profit);
- 11.16. Stop Loss, Take Profit, Buy Limit, Buy Stop, Sell Limit and Sell Stop Orders on Financial Instruments shall be executed at the price declared by the Client on the first current price touch. The Company reserves the right not to execute the Order or to change or to revert the opening (closing) price of the Transaction in case of a technical failure of the Platform reflected financial tools' quotes feed, or any other technical failure;
- 11.17. Under certain trading conditions it may be impossible to execute Orders (Stop Loss, Take Profit, Buy Limit, Buy Stop, Sell Limit, and Sell Stop) on any Financial Instrument at the declared price. In this case, the Company reserves the right at its sole discretion, to execute the Order at the next best available price. This may occur, for example: at times of rapid price movement if the price rises or falls in one trading session to such an extent that under the rules of the relevant exchange, trading is suspended or restricted; at trading session start moments; during volatile markets where prices may be moving significantly up or down and away from the declared price; and during news time. Another example is when the market opens after the weekend, at a different price from the time of closure, thus causing a price gap.
- 11.18. The Client may submit to the Company by electronic mail (e-mail) or in writing or by hand, his objection to the execution or the non-execution or the mode of execution of a Transaction and/or Order concluded on his behalf, within five (5) Business Days from the conclusion of the Transaction. Otherwise, the Transaction shall be considered valid and binding for the Client;

operations: opening/closing a position; changing or removing Orders;

- 11.20. In case of Force Majeure, hacker attacks and other illegal actions against the server of the Company and/or a suspension of trade in the financial markets concerning Financial Instruments of the Company, the Company may suspend or close the Client's positions and request the revision of the executed Transactions;
- 11.21. For purposes of trading with the Company, the Client shall refer to the Company's prices on the Client's terminal. The quotes appearing on the Client's terminal are based on the quotes from the liquidity provider and are indicative quotes and the actual execution price may vary depending on market conditions. For example, if there is high volatility in the Underlying Market the execution of the Order may change due to execution time and also the Client may ask for a price but he shall get the first price that shall be in the market and this may result in positive or negative Slippage for the Client;
- 11.22. The Client shall not employ any means, electronic or otherwise, for the purpose of automatic trading on his Trading Account. The Client shall not use or allow the use of a computer for the purpose of performing a Transaction in a way that the Transaction performed obstructs or interferes with the regular and ordinary carrying out of the said Transaction, as this was contemplated by the Company, including but not limited to, expert advice software, auto clickers and other similar software. Whereas the Client wishes to act contrary to the provisions of this clause, he shall give written notice to the Company, and may only act contrary to the provisions of this clause where the Company provides its express approval;
- 11.23. The Company reserves the right to change the trading conditions on its Website at any time (e.g. CFD products, Financial Instruments, spreads, fees, Leverage limits, trading hours, Initial Margin, etc.). The Client agrees to check the trading conditions and the full specification of the Financial Instrument before placing any Order;
- 11.24. The Company reserves the right, in accordance with Applicable Regulations, to change the Client's Trading Account Leverage limits and Initial Margin at its sole discretion, either for a limited time period or on a permanent basis, by informing the Client by electronic mail (e-mail) or by posting an announcement on the Website or by another Durable Format;
- 11.25. The Company shall provide the Retail Client with Negative Balance Protection so that the Client shall not lose more than the total sum invested for trading CFDs and there can be no residual loss or obligation to provide additional funds beyond those in the Client's Trading Account;
- 11.26. Negative Balance shall only be instituted on a per-Account basis. A Client who has one large leveraged position within a portfolio can still lose more than the value of the initial position. Any other positions or funds the Client has with the Company can be used to cover that negative Balance. In any case, in general, a Client's Trading Account shall never enter negative territory and if it does, the loss falls to the Company and not to the Client;
- 11.27. The Company has the right at its sole discretion to increase or decrease spreads on Financial Instruments depending on market conditions, without any prior notice to the Client;

11.28. The Company has the right at its sole discretion not to accept CFD trading in Currency Pairs (Forex Trading) two (2) minutes before and after a critical press release;

11.29. The Client is prohibited from performing Scalping Trades. The Company reserves the right to cancel any trades that have been closed within the two (2)-minute limit, and has the right to act according to paragraph 24 of this Agreement.

12. Refusal to Execute Orders

12.1. The Client acknowledges and accepts that the Company reserves the right to refuse to execute any Order in any of, but not limited to, the following cases:

- a) Whenever the Company deems that the execution of the Order aims at or may aim at manipulating the market of the Underlying Assets, constitutes an abusive exploitation of privileged confidential information (insider trading), contributes to the legislation of proceeds from illegal acts or activities (money laundering), affects or may affect in any manner the reliability or smooth operation of the Platform;

DEPAHO LIMITED

ORDER EXECUTION POLICY

July 2018

Introduction

Depaho Ltd operating through the brand name FXGM (the **“Company”**) is an Investment Firm regulated by the Cyprus Securities and Exchange Commission (license number 161/11). The Company is also authorised by the Financial Services Conduct Authority in South Africa (the **“FSCA”**) (license number 47709). Following the implementation of the second Markets in Financial Instruments Directive (MiFID II) in the European Union and in accordance with the Investment Services and Activities and Regulated Markets Law of 2017 (Cyprus Law 87(I)/2017) as this is amended from time to time, the Company is required to provide its Clients with its Order Execution Policy (the **“Policy”**).

Under the above-mentioned legislation, the Company is required to take all reasonable steps to obtain the best possible result (or **“best execution”**) on behalf of its Clients either when executing Client Orders or receiving and transmitting Orders for execution. The Policy sets out how the Company shall obtain best execution and provides appropriate information to its Clients on its Policy.

The present Policy forms part of the Agreement. By entering into the Agreement with the Company, Clients also agree to the terms and conditions of the Policy, as set out in this document.

Scope

The Policy applies to retail and professional Clients. This Policy applies when receiving and transmitting Client Orders and/or executing Client Orders for the Financial Instruments provided by the Company. The Financial Instruments provided by the Company are derivatives of an underlying Financial Instrument, and it is up to the Company's sole discretion to decide which types of Financial Instruments to make available, and to publish the prices at which these can be traded. In relation to individual transactions in Contract for Differences (**“CFDs”**) with the Execution Venue, the Company always acts as an agent acting on behalf of Clients. The Counterparty (or principal) to every trade is always Forex Capital Trading Pty Ltd (**“FXCT”**) (Australian Financial Services license number 306400); therefore, if the Client decides to open a position in a Financial Instrument with FXCT, then that Open Position can only be closed with FXCT. The Client is given the option to place the following Orders for execution with the Company in the following ways:

- The Client places a market Order which is an Order instantly executed against a price that the Company has provided from FXCT (the Execution Venue). The Client may attach to a market Order a Stop Loss and/or Take Profit. Stop Loss is an Order to limit Client's loss, whereas Take Profit is an Order to limit Client's profit. The Client may enter, cancel or modify the Stop Loss and/or Take Profit of an Open Position at any given moment. Once the position has been closed the Client cannot alter the Stop Loss or Take Profit levels.
- The Client places a Pending Order, which is an Order to be executed at a later time at the price that the Client specifies. The Company shall monitor the Pending Order and when the price provided by the Company reaches the price specified by the Client, the Order shall be executed at that price. The following types of pending Orders are available: Buy Limit, Sell Limit, Buy Stop and Sell Stop. The Client may attach to any pending Order a Stop Loss and/or Take Profit. The Client may modify an Order before it is executed. Once the position has been closed the Client cannot alter the Stop Loss and Take Profit levels. The Client has no right to change or remove Stop Loss, Take Profit and Pending Orders if the price has reached the level of the execution. When a Client uses a Stop Loss and Take Profit for the same Order, the relationship between the two Orders shall be OCO (One Cancels the Other). In other words, when the Stop Loss level is reached the Take Profit Order shall be automatically cancelled and vice versa.

Best Execution

The Company shall take all reasonable steps to obtain the best possible result for its Clients, taking into account the following factors when executing Clients Orders against the Company's quoted prices:

1. Price

For any given Financial Instrument the Company shall quote two prices: the higher price, or Ask Price, at which the Client can buy (i.e. go long) that Financial Instrument, and the lower price, or the Bid price, at which the Client can sell (i.e. go short) that Financial Instrument; collectively they are referred to as the Company's price. The difference between the Ask Price and the Bid Price of a given Financial Instrument is the spread. Short positions shall be closed at the ASK price (whether the transaction is closed manually by the Client, or through the Stop Loss or Take Profit). Long positions shall be closed at the BID price (whether the transactions are closed manually by the Client or through the Stop Loss or Take Profit). The Company's price for a given Financial Instrument is calculated by reference to the price of the relevant underlying Financial Instrument, which the Company obtains from third party external reference sources.

The Company's prices are constructed with reference to the given Financial Instrument list, which can be found on the Company's Website under the section [Product Sheet & Costs](#) available to all Clients. The Company updates its prices as frequently as the limitations of technology and communications links allow. The Company reviews its used third party external reference sources at least annually, to ensure that the data obtained continues to be competitive. The Company shall not quote any price outside the Company's Operating (Trading) Time, so no Orders can be placed by the Client during that time.

2. Orders

Buy Stop, Sell Stop, Buy Limit, Sell Limit, Take Profit, Stop Loss, placed on Financial Instruments contracts are executed at the prices specified by the Client on the first current price touch. However, under certain trading conditions it may be impossible to execute Orders (Stop Loss, Take Profit, Buy Limit, Buy Stop, Sell Limit, Sell Stop) on any Financial Instrument contract at the declared price. In this case the Company has the right to execute the Order at the next best available price. This may occur, for example: at times of rapid price movement if the price rises or falls in one trading session to such an extent that under the rules of the relevant exchange, trading is suspended or restricted; at trading session start moments; during volatile markets where prices may be moving significantly up or down and away from the declared price; and during news time. Another example is when the market opens after the weekend, at a different price from the time of closure, thus causing a price gap.

The Company makes every effort and necessary arrangements to provide the best possible price to its Clients, however, under certain circumstances as exemplified above, it may be impossible to guarantee the execution of any or all of the Pending Orders at the declared price.

3. Costs

For opening a position in some types of Financial Instruments the Client may be required to pay commission or financing fees, the amount of which is disclosed in the [Product Sheet & Costs](#) on the Company's Website. Commissions may be charged either in the form of a percentage of the overall value of the trade or as a fixed amount.

In the case of financing fees, the value of opened positions in some types of Financial Instruments is increased or reduced by a daily financing/rollover fee throughout the life of the contract. Financing fees are based on prevailing market interest rates, which may vary over time.

For all types of Financial Instruments that the Company offers, the commission and financing fees are not incorporated into the Company's quoted price and are instead charged/paid explicitly to the Client's Trading Account.

4. Speed of Execution

The Company acts as an agent and not as a principal on the Client's behalf, and the Company's sole Execution Venue for the execution of Clients' Orders for Financial Instruments is FXCT. The Company places a significant importance when executing Clients' Orders and strives to offer high speed of execution within the limitations of technology and communications links. The use of any form of unstable Internet connection may result in delays in the transmission of data between the Client and the Company when using the Company's electronic trading Platform. The delay might result in sending out of date market Orders to the Company, which might be declined by the same, or requesting from the Client to retry to submit the Order.

If the Client undertakes transactions on an electronic system, he shall be exposed to risks associated with the system, including the failure of hardware and software (e.g. Internet and servers). The result of any system failure may be that the Order is either not executed according to the instructions or it is not executed at all. The Company does not accept any liability in the case of such a failure. The use of wireless connection or dial-up connection or any other form of unstable connection at the Client's end, may result in poor or interrupted connectivity or lack of signal strength, causing delays in the transmission of data between the Client and Company when using the Company's Platform. This delay may result in sending out of date market Orders to the Company, which might be declined by the same.

The Client may request the Company to execute upon receipt, instructions conveyed by telephone, facsimile, e-mail or any other written or verbal means of communication that each of the present and future Account holders, attorneys and duly authorised representatives shall give individually to the Company, even if these instructions are not followed by a confirmation in writing. The Company does not accept any liability in case of a misunderstanding, error in the identification of the person giving the instruction or other errors on its part related to such method of communication and which may involve losses or other inconveniences for the Client. The Company reserves the right not to execute instructions transmitted by telephone or facsimile. Telephone conversations may be recorded and you will accept such recordings as conclusive and binding evidence of the instructions.

5. Likelihood of Execution

The Company is not the Execution Venue for the execution of the Client Orders in CFDs. So, in relation to individual CFDs transactions, the Company does not execute Client Orders on an own account basis as a counterparty towards its Client. The Company transmits Client Orders or arranges for their execution with the third party Liquidity Provider FXCT, the Execution Venue, and not the Company. The Company relies on its Liquidity Provider for prices and available volume and transmits Client Orders for execution to this counterparty. Execution of Client Orders will depend on the pricing and available liquidity of the said provider. Although the Company executes all Orders placed by Clients, it reserves the right to decline an Order of any type and/or to offer the Client a new price. In this case, the Client can either accept the new price or try again to place an Order at the market price.

6. Likelihood of Settlement

The Company shall proceed to settlement of all transactions upon execution of such transactions.

7. Size of Order

- a) Forex (CFDs): minimum size Order 5,000 Base Currency Units / FX CFDs: USD5,000 or equivalent amount in other currency;
- b) CFDs on value of Commodities, Stocks and Indexes = 1 Unit for a standard Account (1 Unit = 1 contract e.g. 100 ounces of Gold=100) with minimum size Order of USD5,000 or equivalent amount in other currency.

The Company reserves the right to decide on the minimum and maximum size of an Order (Lot size) based on the Client's profile and/or initial deposit. Although there is no maximum size of Order that the Client can place with the Company, the Company reserves the right to decline an Order as explained in the Agreement entered into with the Client.

The Company reserves the right to limit the exposure of a Retail Client up to USD 30,000,000 per Account unless agreed otherwise with the Client.

8. Market Impact

Some factors may rapidly affect the price of the underlying Financial Instruments from which the quoted Company price for these is derived. These factors may influence some of the factors under paragraph 2 of this Policy. The Company shall take all reasonable steps to obtain the best possible result for its Clients. The Company does not consider the above list exhaustive and the Order in which the above factors are presented shall not be taken as a priority factor.

Nevertheless, whenever there is a specific instruction from the Client, the Company shall ensure that the Client Order is executed following the specific instruction or according to the next best available price.

The Company shall determine the relative importance of the above factors by using its commercial judgment and experience as per the information available on the market and taking into account the criteria described below:

- a) the characteristics of the Client including his categorization as Retail or Professional;
- b) the characteristics of the Client Order;
- c) the characteristics of the Financial Instrument that is the subject of that Order.

When executing an Order on behalf of a Retail Client, the best possible result shall be determined in terms of the total consideration, representing the price of the Financial Instruments and the costs relating to execution, which shall include all expenses incurred by the Client which are directly relating to the execution of the Order, including execution venue fees, clearing and settlement fees and any other fees paid to third parties involved in the execution of the Order.

Slippage

You are warned that Slippage may occur when trading in CFDs. This is the situation when, at the time that an Order is presented for execution, the specific price shown to the Client may not be available; so, the Order shall be executed at the next best available price from the Client's requested price. Slippage is the difference between the expected price of an Order, and the actual price at which the Order was executed. If the execution price is more favourable than the price requested by the Client, this is referred to as positive Slippage. If the executed price is worse than the price requested by the Client, this is referred to as negative slippage.

Be advised that Slippage is a normal element when trading in Financial Instruments. It occurs most often during periods of illiquidity or higher volatility, for example due to news announcements, economic events or market openings, making it impossible to execute an Order at a specific price. In other words, your Order may not be executed at the declared price. It is noted that Slippage can also occur with Stop Loss, Take Profit and other types of Orders. The Company does not guarantee the execution of your Pending Orders at the price specified. However, the Order shall be executed at the next best available price from the price specified under the Pending Order.

Execution Venues

Execution Venues are the entities with which the Orders are placed or to which the Company transmits Orders for execution. For the purposes of Orders for the Financial Instruments provided by the Company, the Company acts as an agent on the Client's behalf. FXCT is the sole Execution Venue for the execution of Client Orders.

The Operating (Trading) Time of the Company is around-the-clock, from Sunday 22:00:01 Greenwich Mean Time (GMT) through Friday 22:00:00 GMT. Non-working periods: from Friday 22:00:01 GMT through Sunday 22:00:00 GMT. Holidays are announced on the Company's Website.

The Company places significant reliance on the above Execution Venue based on the above-mentioned factors and their relevant importance. It is the Company's policy to maintain such internal procedures and principles in order to act in the best interest of its Clients and provide them the best possible result.

The Client acknowledges and consents that the Transactions in Financial Instruments entered with the Company's Execution Venue are not undertaken on a recognized exchange; they are undertaken through the Company's Trading Platform (i.e. Over-The-Counter) and, accordingly, may expose the Client to greater risks than regulated exchange transactions.

The Company may not execute an Order or it may change the opening/closing price of an Order in case of any technical failure of the trading Platform or quote feeds. The terms and conditions and trading rules are established solely by the counterparty, FXCT. The Client shall close an Open Position of any given Financial Instrument during the opening hours of the Company's Trading Platform, and shall close any position with the same counterparty with whom it was originally entered into, thus FXCT.

Monitoring and Review

The Company shall monitor the effectiveness of this Policy on a regular basis and, in particular, the execution quality of the procedures explained in the Policy and, where appropriate, may correct any deficiencies.

The Company shall review the Policy at least annually, and whenever a material change occurs that affects the ability of the Company to continue to execute Client Orders with the best possible result on a consistent basis through its Execution Venue.

The Company shall notify its affected Clients on any changes to its Policy by publishing these on the Website available to all Clients.

Client Consent

Prior to establishing a business relationship with the Client, the Company shall obtain the Client's consent to the Privacy Notice. The Company shall also obtain the Client's prior express consent before it executes or transmits any Order for execution outside a regulated market or an MTF (Multilateral Trading Facility). The Company may obtain the above consents in the form of a general Agreement where the Client is informed that for any Orders placed with the Company for the Financial Instrument offered by the Company, the Company acts as an agent on the Client's behalf, and the sole Execution Venue for the execution of Client Orders is FXCT.

Clients' Specific Instructions

Whenever there is a specific instruction from or on behalf of a Client, the Company shall execute the Client Order in accordance with the specific instruction, to the extent possible.

WARNING: The nature of a Client's specific instruction, or trading rules for specific markets, or market conditions, may prevent the Company from following that instruction or from obtaining the best possible result, as explained in this Policy.

Margin Close-Out

As at 1 August 2018, if the total margin in an Account falls under 50% of the amount of margin required in respect of the Open Positions, the Company shall close one or more of these, at the current market price. Margin Close-Out shall also apply to positions with a Stop Loss Order or limited risk protection. Any Pending Orders to be executed after 1 August 2018 shall be subject to the 50% Margin-Close Out rule, whereas this rule shall not apply to positions opened prior to this date. The reason for closure of a position can be found in the Client's activity log on his Account.

CLIENT CATEGORISATION

July 2018

Introduction

Depaho Ltd operating through the brand name FXGM (the **“Company”**) is an Investment Firm regulated by the Cyprus Securities and Exchange Commission (license number 161/11). The Company is also authorised by the Financial Services Conduct Authority in South Africa (the **“FSCA”**) (license number 47709). Following the implementation of the second Markets in Financial Instruments Directive (MiFID II) in the European Union and in accordance with the Investment Services and Activities and Regulated Markets Law of 2017 (Cyprus Law 87(I)/2017) as this is amended from time to time, the Company is required to categorise its Clients accordingly.

The present policy forms part of the Agreement. By entering into the Agreement with the Company, Clients also agree to the terms and conditions of the policy, as set out in this document.

Categorisation Criteria

The Company categorises its Clients into one of the following three (3) categories:

“Retail Client” is a Client who is not a Professional Client or an Eligible Counterparty, as these are described below.

“Eligible Counterparty” is any of the following entities to which a Credit Institution or an Investment Firm provides the services of Reception and Transmission of Orders on behalf of Clients and/or Execution of such Orders and/or Dealing on own Account: Cyprus Investment Firms, other Investment Firms, Credit Institutions, Insurance Undertakings, UCITS and their management companies, Pension Funds and their management companies, and other Financial Institutions authorised by a Member State or regulated under Community legislation or the national law of a Member State, undertakings exempted from the application of the Investment Services and Activities and Regulated Markets Law of 2017 as amended from time to time, under article 3(2)(k) and (l), National Governments and their corresponding offices including Public Bodies that deal with Public Debt, Central Banks and Supranational Organisations.

“Professional Client” is a Client who possesses the experience, knowledge and expertise to make his own investment decisions and properly assess the risks that he incurs. In order to be considered a Professional Client, a Client must comply with the below criteria.

A Categories of Clients who are considered to be Professionals

1. Entities which are required to be authorised or regulated to operate in the financial markets. The list below should be understood as including all authorised entities carrying out the characteristic activities of the entities mentioned, i.e. entities authorised by a Member State under a European Community Directive, entities authorised or regulated by a Member State without reference to such Directive and entities authorised or regulated by a non-Member State:
 - a) Credit institutions;
 - b) Investment firms;
 - c) Other authorised or regulated financial institutions;
 - d) Insurance Undertakings;
 - e) Collective investment schemes and management companies of such schemes;
 - f) Pension funds and management companies of such funds;

- g) Commodity and commodity derivatives dealers;
- h) Locals;
- i) Other institutional investors.

2. Large undertakings meeting two of the following size requirements on a proportional basis:

- balance sheet total of at least EUR20,000,000;
- net turnover of at least EUR40,000,000;
- own funds of at least EUR2,000,000.

3. National and regional governments, public bodies that manage public debt, Central Banks, international and supranational institutions such as the World Bank, the International Monetary Fund, the European Central Bank, the European Investment Bank and other similar international organisations.

4. Other institutional investors whose main activity is to invest in Financial Instruments, including entities dedicated to the securitization of assets or other financing Transactions.

The entities mentioned above are considered to be Professionals, although are allowed to request non-professional treatment and the Company may agree to provide a higher level of protection. Where the Client of the Company is an undertaking referred to above, the Company shall inform that undertaking, prior to any provision of services, that on the basis of the information available to the Company, the undertaking is deemed to be a Professional Client and shall be treated as such unless the Company and the Client agree otherwise. The Client may request a variation of the terms of the Agreement in order to secure a higher degree of protection.

It is the responsibility of the Client, considered to be a Professional Client, to ask for a higher level of protection when it deems it is unable to properly assess or manage the risks involved.

This higher level of protection will be provided when a Client who is considered to be a Professional, enters into a written agreement with the Company to the effect that it shall not be treated as a Professional for the purposes of the applicable conduct of business regime. Such agreement will specify whether this applies to one or more particular services or transactions, or to one or more types of product or Transaction.

B. Clients who may be treated as Professionals on request

Identification Criteria

Clients other than those mentioned in paragraph A above, including public sector bodies, local public authorities, municipalities and private individual investors, may also be allowed to waive some of the protections afforded by the conduct of business rules of Cyprus Investment Firms.

The Company may treat any of these Clients as Professionals, provided the relevant criteria and procedure below are fulfilled. These Clients shall not, however, be presumed to possess market knowledge and experience compared to that of the categories listed in paragraph A.

Any such waiver of the protection afforded by the standard conduct of business regime will be considered valid only if an adequate assessment of the expertise, experience and knowledge of the client, undertaken by the Company, gives reasonable assurance, in light of the nature of the Transactions or Services, that the Client is capable of making his own investment decisions and understanding the risks involved.

In the course of the Company's assessment, as a minimum, two of the following criteria shall be satisfied:

- the Client has carried out transactions, in significant size, on the relevant market at an average frequency of 10 per quarter over the previous four quarters;
- the size of the Client's Financial Instrument portfolio, defined as including cash deposits and Financial Instruments, exceeds EUR500,000;
- the Client works or has worked in the financial sector for at least one (1) year in a professional position, which requires knowledge of the Transactions or Services.

Procedure

A Client who requests to be treated as Professionals shall waive the benefit of the detailed rules of conduct only where the following procedure is followed:

- he must state in writing to the Company, that he wishes to be treated as a Professional Client, either generally or in respect of a particular investment service or transaction, or type of transaction or product;
- the Company shall give him a clear written warning of the protections and investor compensation rights he might lose;
- he must state in writing in a separate document from the contract, that he is aware of the consequences of losing such protections.

Before deciding to accept any request for waiver, the Company is required to take all reasonable steps to ensure that the Client requesting to be treated as a Professional Client meets the relevant requirements.

If the Client has already been categorised as Professional under parameters and procedures similar to those above, it is not intended that his relationship with the Company should be affected by any new rules adopted pursuant to the Applicable Regulations mentioned above.

Professional Clients are responsible for keeping the Company informed about any change which could affect their current categorisation. Should the Company become aware that a Client no longer fulfills the initial conditions which made him eligible for professional treatment, the Company shall take any appropriate action.

Request for Different Categorisation

The following requests may be submitted to the Company:

- a) A Retail Client requesting to be categorised as a Professional Client. In this case the Client will be afforded a lower level of protection.
- b) A Professional Client requesting to be categorised as a Retail Client. In this case the Client seeks to obtain a higher level of protection.
- c) An Eligible Counterparty requesting to be categorised as a Professional Client or Retail Client. In this case the Client seeks to obtain a higher level of protection.

The Company reserves the right to decline any of the above requests for different categorisation without further details provided.

Protection Rights

Retail Clients / Professional Clients

Where the Company treats the Client as a Retail Client, he will be entitled to more protections under the law than if the Client were treated as a Professional Client. In summary, the additional protections Retail Clients are entitled to are as follows:

- a) A Retail Client may be given more information/disclosures with regard to the Company, its services and any investments, its costs, commissions, fees and charges and the safeguarding of client Financial Instruments and client funds;
- b) A Retail Client shall be requested to provide information regarding his knowledge and experience in the investment field relevant to the specific type of product or service offered or demanded so as to enable the Company to assess whether the investment service or product is appropriate for the Client. In case the Company considers, on the basis of the information received, that the product or service is not appropriate for the particular Retail Client, it shall warn him accordingly. However, the Company is not required to assess appropriateness in certain cases specified by law. The Company shall be entitled to assume that a Professional Client has the necessary experience and knowledge in order to understand the risks involved in relation to those particular investment services or Transactions, or types of Transaction or product, for which the Client is classified as a Professional Client. Consequently, and unlike the situation with a Retail Client, the Company may not need to obtain additional information from the Client for the purposes of the assessment of appropriateness for those products and services for which they have been classified as a Professional;
- c) When executing Orders, the Company shall take all reasonable steps to achieve “best execution” for its Retail Clients, i.e. the best possible result. Where the Company executes an Order on behalf of a Retail Client, the best possible result shall be determined in terms of the total consideration, representing the price of the Financial Instrument and the costs related to execution, which shall include all expenses incurred by the client which are directly related to the execution of the Order, including execution venue fees, clearing and settlement fees and any other fees paid to third parties involved in the execution of the Order. When providing Professional Clients with best execution the Company is not required to prioritize the overall costs of the transaction as being the most important factor in achieving best execution for them;
- d) The Company shall obtain from the Retail Client such information as is necessary for it to understand the essential facts about the Client and to have a reasonable basis for believing, giving due consideration to the nature and extent of the Services provided, that the specific Transaction to be entered into, satisfies the following criteria:
 - it meets the investment objectives of the Client in question;
 - it is such that the Client is able financially to bear any related investment risks consistent with his investment objectives;
 - it is such that the Client has the necessary experience and knowledge in order to understand the risks involved in the transaction or in the management of his portfolio.

Where the Company provides an investment service to a Professional Client, it shall be entitled to assume that, in relation to the products, Transactions and Services for which the Client is so classified, the Client has the necessary level of experience and knowledge for the purposes of the third point above. In addition, under certain circumstances, the Company shall be entitled to assume that a Professional Client is financially able to bear any investment risks consistent with its investment objectives;

- e) The Company shall inform Retail Clients of material difficulties relevant to the proper carrying out of their Orders promptly upon becoming aware of the difficulty;
- f) The Company shall provide Retail Clients with more information than Professional Clients as regards execution of Orders other than for portfolio management;
- g) The Company shall not use Financial Instruments held by the Company on behalf of a Client for the

Company's own account or the account of another Client of the Company, without the Client's prior express consent to the use of the instruments on specified terms, as evidenced, in the case of a Retail Client, by his signature or equivalent alternative mechanism;

- h) Retail Clients may be entitled to compensation under the Investor Compensation Fund.

Eligible Counterparties

Where the Company treats the Client as an Eligible Counterparty, the Client shall be entitled to lower protections under the law than he would be entitled to as a Professional Client. In particular, and in addition to the above-mentioned:

- a) The Company shall not be required to provide the Eligible Counterparty with best execution;
- b) The Company shall not be required to disclose to the Eligible Counterparty, information regarding any fees or commissions that the Company pays or receives;
- c) The Company shall not be required to assess the suitability or appropriateness of a product or service that it provides to an Eligible Counterparty, but can assume that it has the expertise to choose the most appropriate product or service for it and that it is able financially to bear any investment risks consistent with his investment objectives;
- d) The Company shall not be required to provide the Client with information about the Company, its Services and the arrangements through which the Company shall be remunerated;
- e) The Company shall not be required to provide the Eligible Counterparty with risk disclosures on the products or Services that he selects from the Company;
- f) The Company shall not be required to provide reports to the Client on the execution of his Orders or the management of his investments.

DEPAHO LIMITED

CONFLICT OF INTEREST POLICY

July 2018

Introduction

Depaho Ltd operating through the brand name FXGM (the **“Company”**) is an Investment Firm regulated by the Cyprus Securities and Exchange Commission (license number 161/11). The Company is also authorised by the Financial Services Conduct Authority in South Africa (the **“FSCA”**) (license number 47709). Following the implementation of the second Markets in Financial Instruments Directive (MiFID II) in the European Union and in accordance with the Investment Services and Activities and Regulated Markets Law of 2017 (Cyprus Law 87(I)/2017) as this is amended from time to time, the Company is required to provide its Clients with its Conflict of Interest Policy (the **“Policy”**).

The present Policy forms part of the Agreement. By entering into the Agreement with the Company, Clients also agree to the terms and conditions of the Policy, as set out in this document.

Scope

The Policy applies to all Company directors, employees and any persons directly or indirectly linked to the Company (the **“related persons”**) and refers to all interactions with all Clients.

Definition/Interpretation

A conflict of interest arises where there is a reason within the Company’s control that prevents it from putting the interests of its Clients before those of the Company and its employees, or the interests of one Client or group of Clients ahead of another Client. In such a situation, the Company must pay due regard to the interests of each Client and manage any potential conflict of interest accordingly.

The underlying principle that shall be followed at all times is that the interests of the Client must always be put before the interests of the Company and/or its employees and related persons. A conflict may exist, or be perceived to exist, if an employee’s activity is, or may reasonably give the appearance of being, inconsistent with the best interests of the Company’s Clients.

Identification of possible conflicts of interest

The Company shall take all reasonable steps to identify any circumstances which constitute or may give rise to, a conflict of interest entailing a material risk or damage to Clients’ interests. These circumstances may be between the Company and its related persons, the Company and its Clients, or between Company Clients, during the course of the provision of investment and ancillary services.

Non-exhaustive list of possible conflicts of interest

While it is not feasible to precisely define or create an exhaustive list of all possible conflict of interest situations that may arise as per the current nature, scale and complexity of the Company’s activities, the following list includes circumstances which constitute or may give rise to a conflict of interest entailing a material risk of damage to the interests of one or more Clients, as applicable. These circumstances are not necessarily detrimental to the interests of Clients.

- a) The interest of relevant persons, shareholders, directors or agents of the Company or members of its Group in Clients, and vice versa;
- b) An interest in maximizing the Company’s trading volumes in order to increase its commission revenue, which is inconsistent with the Client’s personal objective of minimizing transaction costs;
- c) Relevant persons’ personal transactions within the meaning of Applicable Regulations;
- d) The remuneration of third parties where the interest of the Client conflicts with the interest of the third party;
- e) The interests of other members of the group which the Company belongs to and/or the interests of other

members of the group that provide services to the Company (e.g. the Liquidity Provider FXCT forms part of the group).

Managing conflicts of interest

1. General Principles

The Company shall maintain and operate effective organizational and administrative arrangements with a view to taking all reasonable steps to prevent any conflicts of interest from adversely affecting the interests of its Clients.

The Company shall take into account any circumstances of which it is or should be aware, which may give rise to a conflict of interest as a result of the structure and business activities of other members of the group which the Company belongs to.

2. Non-exhaustive list of procedures and measures

For the management and prevention of any conflict of interest, the Company's procedures and controls include the following, as applicable and relevant:

- a) Chinese Walls to prevent the flow of confidential information and data in a way that adversely affects the interests of Clients;
- b) Executive Directors or other hierarchical officers of the Company do not exercise inappropriate influence over the way in which a related person carries out the provision of investment and ancillary services;
- c) The Compliance Department shall ensure strict implementation of the Assessment of Appropriateness in order to ensure adequate monitoring of compatibility of the provision of brokerage services to Retail Clients;
- d) Arrangements designed to ensure that related persons engaged in different business activities carry on those activities at a level of independence appropriate to the size and activities of the Company and of the group to which it belongs, and to the materiality of the risk of damage to the interests of Clients;
- e) the Company shall be informed promptly of any personal transaction entered into by a relevant person, either by notification of that transaction or by other procedures enabling the Company to identify and evaluate such transactions;
- f) All employees are aware of forbidden transaction practices (e.g. the preferential treatment of Company members of staff at the expense of its Clients, during the provision of the investment and ancillary services to a Client);
- g) Establishing objective and independent procedures for the assessment of other members of the group who collaborate with the Company for the provision of Services to Clients (e.g. the Liquidity Provider forms part of the group). Further to this the Company always acts as the Client's agent, receiving payment from the Client's transaction volume, and does not enter into profit sharing arrangements with its Liquidity Provider regardless that the Liquidity Provider is a member of the same group as the Company.

Disclosure of Information

If during the course of a business relationship with a Client or group of Clients, the organizational or administrative arrangements/measures in place are not sufficient to avoid or manage a conflict of interest

relating to a Client or group of Clients, then, the Company shall disclose that conflict of interest before undertaking further business with the Client or group of Clients.

The Company reserves the right to review and/or amend its Policy and arrangements whenever it deems this appropriate with or without notice to the Client. Further information regarding the Policy is available upon request.

Should you require any further information and/or have any questions about conflicts of interest, please direct your request and/or questions to info@fxgm.eu.

DEPAHO LIMITED
GENERAL RISK DISCLOSURE

July 2018

Depaho Ltd operating through the brand name FXGM (the “**Company**”) is an Investment Firm regulated by the Cyprus Securities and Exchange Commission (license number 161/11). The Company is also authorised by the Financial Services Conduct Authority in South Africa (the “**FSCA**”) (license number 47709). Following the implementation of the second Markets in Financial Instruments Directive (MiFID II) in the European Union and in accordance with the Investment Services and Activities and Regulated Markets Law of 2017 (Cyprus Law 87(I)/2017) as this is amended from time to time, the Company is required to provide its Clients with a Risk Disclosure.

The present disclosure forms part of the Agreement. By entering into the Agreement with the Company, Clients also agree to the disclosure terms, as set out in this document.

The Company does not and cannot guarantee the initial capital of the Clients’ portfolio or its value at any time, or any money invested in any Financial Instrument.

The Client irrevocably acknowledges and accepts that regardless of any information which may be offered by the Company, the value of any investment in a Financial Instrument may fluctuate downwards or upwards, and it is even possible that the investment may become of no value.

The Client irrevocably acknowledges and accepts that he runs a great risk of incurring losses and damages as a result of the purchase and/or sale of any Financial Instrument. The Client therefore accepts and declares that he is willing to undertake this risk.

The Client shall not engage in any investment directly or indirectly in any Financial Instrument unless he is aware of and understands the features and risks involved for each Financial Instrument.

The Client declares that he has read, understood and irrevocably accepts the following:

- a) Information of the previous performance of a Financial Instrument does not guarantee its current or future performance. The use of historical data does not constitute a binding or safe forecast as to the corresponding future performance of the Financial Instrument to which the said information refers;
- b) Some Financial Instruments may not become immediately liquid as a result of, for example, reduced demand and the Client not being able to sell a particular Financial Instrument, or easily obtain information on the value of that Financial Instrument or on the extent of the associated risks;
- c) When a Financial Instrument is traded in a currency other than the currency of the Client’s country of residence, any changes in the exchange rates may have a negative effect on the value, price and performance of the particular Financial Instrument;
- d) A Financial Instrument on foreign markets may entail risks different to the usual risks of the markets in the Client’s country of residence. In some cases, these risks may be greater. The prospect of profit or loss from transactions on foreign markets is also affected by exchange rate fluctuations;
- e) A derivative Financial Instrument (i.e. option, future, forward, swap, CFD) may be a non-delivery spot transaction giving an opportunity to make profit on changes in currency rates, commodity, stock market indices or share prices called the underlying instrument;
- f) The value of the derivative Financial Instrument may be directly affected by the price of the security or any other underlying asset which is the object of the acquisition;
- g) The Client must not purchase a derivative Financial Instrument unless he is willing to undertake the risk of entirely losing all the money which he has invested and also any additional commissions and other expenses incurred;
- h) The Company’s insolvency or default may lead to positions being liquidated or closed out without the Client’s consent;
- i) The Client and not the Company shall be responsible for the risks of financial losses caused by failure,

malfunction, interruption, disconnection or malicious actions of information, communication, electricity, electronic systems or other;

- j) At times of excessive deal flow the Client may have difficulties to be connected over the telephone or the Company's Platform/system(s), especially in fast market conditions, for example when key macroeconomic indicators are released;
- k) The Client is warned that when trading on an electronic Platform he assumes risk of financial loss which may be a consequence of, amongst other things:
 - Failure of the Client's devices, software or poor quality of connection.
 - Failure of the Client's hardware or software, or malfunction or misuse thereof.
 - Improper functioning of the Client's equipment.
 - Wrong settings on the Client's terminal.
 - Delayed updates on the Client's terminal.
- l) In case of a Force Majeure event, the Company may not be in a position to arrange for the execution of Client Orders or fulfill its obligations under the Agreement with the Client. As a result, the Client may suffer financial loss. The Company shall not be liable or have any responsibility for any type of loss or damage arising out of any failure, interruption or delay in performing its obligations under this Agreement where such failure, interruption or delay is due to a Force Majeure event;
- m) The Client acknowledges that under abnormal market conditions, the period during which the Orders are executed may be extended or it may be impossible for Orders to be executed at declared prices or may not be executed at all;
- n) The placing of certain Orders (e.g. Stop Loss, Stop Limit) which are intended to limit losses to certain amounts, may not be adequate given that market conditions make it impossible to execute such Orders, for example due to illiquidity in the market. Strategies using combinations of positions, such as "spread" and "straddle" positions, may be as risky as taking simple "long" or "short" positions. Therefore, Stop Limit and Stop Loss Orders cannot guarantee the limit of loss;
- o) The Client acknowledges and accepts that there may be other risks which are not contained above.

The Client shall take the risk that his trades in Financial Instruments may be or become subject to tax and/or any other duty, for example due to changes in legislation or his personal circumstances. The Company does not warrant that no tax or any other stamp duty will be payable. The Client shall be responsible for any taxes or any other duty which may accrue in respect of his trades.

Before the Client begins to trade, he should obtain details of all commissions and other charges for which he will be liable. If any charges are not expressed in money terms (for example as a dealing spread), the Client should obtain a clear written explanation, including appropriate examples, to establish what such charges are likely to mean in specific money terms.

Prior to applying for a Client Trading Account, the Client should consider carefully whether investing in a specific Financial Instrument is suitable for him in light of his circumstances and financial resources. Investing in certain Financial Instruments entails the use of Leverage. In considering whether to engage in this form of investment, the Client should be aware of the following:

- a) A degree of Leverage is a particular feature of Derivative Financial Instruments. This stems from the margining system applicable to such trades, which generally involves a comparatively modest deposit or Margin in terms of the overall contract value, so that a relatively small movement in the underlying market can have a disproportionately dramatic effect on the Client's trade. If the underlying market movement is in the Client's favour, the Client may achieve a profit, but an equally small adverse market movement can quickly result in the loss of the Client's entire deposit. In regard to transactions in Spot Forex and Commodities, these are non-delivery spot transactions giving an

opportunity to make profit on changes in currency rates and on Commodity versus Currency rate. The Client must not trade in Forex or Commodities unless he is willing to undertake the risks of entirely losing all the money which he has invested and also any additional commissions and other expenses incurred;

- b) The Client may be called upon to deposit substantial additional Margin, at short notice, to maintain his position(s). If the Client does not provide such additional funds within the time required, his investment position may be closed. The Company guarantees that there will be Negative Balance Protection in the Account when trading Forex or Commodities, or any Financial Instrument offered and provided by the Company;
- c) CFD transactions may not be undertaken on a Regulated Market or a Multilateral Trading Facility and, accordingly, they may expose the Client to greater risks than exchange transactions. The terms and conditions and trading rules may be established solely by the counterparty. The Client may only be able to close an Open Position of any given contract during the opening hours of the exchange. The Client may also have to close any position with the same counterparty with whom it was originally entered into. In regard to transactions in Forex and Commodities with the Company, the Company uses a Trading Platform for transactions, which does not fall under the definition of a recognized exchange as this is not a Multilateral Trading Facility, and the Company always uses FXCT as the counterparty in every client transaction;
- d) Transactions in foreign exchange and derivative Financial Instruments carry a high degree of risk. The Company requires Clients to pay Initial Margin for the purpose of entering into a CFD. The amount of Initial Margin may be small relative to the value of the foreign exchange or derivatives contract so that transactions are Leveraged. A relatively small market movement will have a proportionately larger impact on the funds the Client has deposited or will have to deposit; this may work against the Client as well as for the Client. The Client may sustain a total loss of initial Margin funds and any additional funds deposited with the Company to maintain his position. If the market moves against the Client's position and/or Margin requirements are increased, the Client may be called upon to deposit additional funds on short notice to maintain his position. Failing to deposit additional funds may result in closure of his position(s) by the Company on his behalf and he will be liable for any resulting loss or deficit;
- e) If the Equity in the Client's trading Account drops to 50% of the Margin Level required to maintain Open Positions, the Client shall receive a Margin Call; this is a warning message that the Equity in the Account is not enough to support the Open Positions; and at this point the Client will not be able to take any new positions or close out some or all of his Open positions;
- f) The Company may not provide the Client with investment advice relating to investments or possible transactions in investments, or make investment recommendations of any kind. This prohibition is subject to an exception when the advice given amounts to the giving of factual market information or information in relation to a transaction about which the Client has enquired, or to transaction procedures, potential risks involved and/or how those risks may be minimized;
- g) The Company shall hold the Client's money in an Account that is segregated from other Clients and the Company's money in accordance with current regulations, but this may not afford complete protection.

This notice cannot and does not disclose or explain all of the risks and other significant aspects involved in dealing in all Financial Instruments and investment services. The Client shall be informed in more detail of the risks involved, based on the categorization assigned to him by the Company and the investment services and Financial Instruments selected.

CRYPTOCURRENCIES RISK DISCLAIMER

July 2018

Depaho Ltd operating through the brand name FXGM (the “**Company**”) is an Investment Firm regulated by the Cyprus Securities and Exchange Commission (license number 161/11). The Company is also authorised by the Financial Services Conduct Authority in South Africa (the “**FSCA**”) (license number 47709). Following the implementation of the second Markets in Financial Instruments Directive (MiFID II) in the European Union and in accordance with the Investment Services and Activities and Regulated Markets Law of 2017 (Cyprus Law 87(I)/2017) as this is amended from time to time, the Company is required to provide its Clients with a Risk Disclaimer related to trading Cryptocurrencies.

The present disclaimer forms part of the Agreement. By entering into the Agreement with the Company, Clients also agree to the disclaimer terms, as set out in this document.

Trading in Cryptocurrencies is not appropriate for everyone as these are highly speculative, volatile and non-regulated products. If the Client intends to buy, hold or trade Cryptocurrencies via CFDs on his trading Platform, the Company recommends that the Client exercises extreme caution and before proceeding, fully understands their specific characteristics and the risks involved.

A non-exhaustive list of the risks related to Cryptocurrencies trading may be found below:

- **Non-regulated:** Cryptocurrencies are a form of unregulated digital money, not issued or guaranteed by a central bank. Clients should only buy, trade or hold Cryptocurrencies if they are aware of all the risks, including losing the entire capital invested.
- **Volatility:** The Cryptocurrencies market is very volatile and prices can easily go down as well as up very sharply. There are many factors which can influence the price of a Cryptocurrency. The laws of supply and demand apply but as the market sizes are smaller when compared to established forms of currencies, even the smallest movements can have a large impact on the Client Trading Account.
- **Use of Limit Orders:** Even though the use of Orders, such as Stop Loss or Take Profit, may largely protect the Client Trading Account from suffering excess losses, this will not necessarily limit the Client’s losses to the predetermined amounts, since market conditions may make it impossible to execute such Orders.
- **Insufficient market liquidity:** Certain market conditions may make it difficult or impossible to close a position. This can occur, for example, if there is insufficient liquidity in the market.
- **Lack of consumer protection:** When using Cryptocurrencies as a means to pay for goods and services, the Client is not protected by any refund rights under European Union law. Acceptance of Cryptocurrencies by retailers is also not permanently guaranteed and is based on their discretion and/or contractual agreements, which may cease at any point and with no notice period.
- **No right to refer a dispute to the Financial Ombudsman of the Republic of Cyprus:** When trading in Cryptocurrencies the option of referring any related dispute to the Financial Ombudsman is not available.
- **No access to the Investor Compensation Fund:** When trading in Cryptocurrencies the Client should be aware that the right to the Investor Compensation Fund for Customers of Cypriot Investment Firms is not available.
